FASTER FIBER. BETTER BUSINESS.™

Partner News & Updates

Product Spotlight: P2MP

Everstream's **Point-to-MultiPoint** service eliminates the need for you to manage a Virtual Private Network (VPN) connection. With our P2MP, your business can connect three or more geographically dispersed sites -- allowing each to communicate with one another as well as a data center or colocation facility of your choice. Everstream's high-speed fiber connection is flexible, scalable and customizable to meet your needs today and in the future.

Recently, a multi-site public library system renewed and upgraded its service with Everstream. Everstream delivered a Point-to-Multipoint connection with both Dedicated Internet Access and V-DIA to serve each of the customer's locations, employees and cardholders. [Read more about why this customer chose Everstream for its Point-to-Multipoint solution.](#)
